INDEPENDENT AUDITOR'S REPORT

Honorable Mayor, Members of the
City Council, City Manager, and City Clerk
Picayune, Mississippi

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Picayune, Mississippi, as of and for the year ended September 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Picayune's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Picayune, Mississippi, as of September 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated April 5, 2011, on our consideration of the City of Picayune, Mississippi's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The budgetary comparison information on page 32, is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

The City has elected not to present Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of Picayune, Mississippi's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Other supplementary financial information listed as schedules in the table of contents is also presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

CITY OF PICAYUNE, MISSISSIPPI
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- I. The City of Picayune, Mississippi incorporated under the laws of the State of Mississippi and situated in Pearl River County, operates under the council-manager form of government and provides the following services as authorized by its charter: Public Safety (Police and Fire), Public Works, Health and Welfare, Culture and Recreation, and General Administrative Services.

The accounting and reporting framework and the more significant accounting principles and practices are discussed in subsequent sections of this Note. The remainder of the notes is organized to provide explanation, including required disclosures, of the City's financial activities for the fiscal year ended September 30, 2010.

- II. The City's basic financial statements include the accounts of all City operations. The criteria for including as a component unit of the city, consists of oversight responsibility, special financing relationships, and scope of public services. Oversight responsibility is determined by the extent of financial interdependency, control over the selection of the governing authority and management, ability to significantly influence operations, and accountability for fiscal matters. Based on these criteria, the City has no component units.

Related Organizations

The Picayune School District has been excluded from the reporting entity, because it is an "other stand-alone government". The school district is a related organization of, but not a component unit of, the City of Picayune. The governing authorities of the City do select a majority of the school district's board, but do not have ongoing financial accountability for the school district.

Joint Ventures and Jointly Governed Organizations

Additionally during its evaluation of potential component units, management identified one joint venture, Partners for Pearl River County, and one jointly governed organization, Municipal Gas Authority of Mississippi.

A joint venture is a legal entity or other organization that results from a contractual arrangement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participations retain (a) an ongoing financial interest or (b) an ongoing financial responsibility. Generally, the purpose of a joint venture is to pool resources and share the costs, risks, and rewards of providing goods or services to the venture participants directly, or for the benefit of, the general public or specific service recipients.

A jointly governed organization is similar in nature to a joint venture in that it provides goods and services to the citizenry of two or more governments. However, it does not meet the definition of a joint venture because there is no ongoing significant financial interest or responsibility by the participating governments.

III. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report financial information on all of the non-fiduciary activities of the City. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The statement of activities demonstrates the degree of which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation

CITY OF PICAYUNE, MISSISSIPPI
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

of capital assets and include fees to developers. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

IV. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

(A) Basis of Accounting

The City complies with accounting principles generally accepted in the United States of American (GAAP) as applicable to governmental entities, and as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. Proprietary funds apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict with GASB pronouncements, in which, GASB prevails.

The government-wide financial statements report using the economic resources measurements focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). Proprietary and fiduciary fund financial statements also report using the same focus and basis of accounting although internal activity is not eliminated in these statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property tax revenues are recognized in the year for which they are levied. Grants and similar items are recognized as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. The City considers revenues to be available if they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Major revenue sources susceptible to accrual include: Property taxes, licenses, intergovernmental revenues, and investment income. In general, other revenues are recognized when cash is received by the City.

Operating income reported in proprietary fund financial statements include revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

(B) Fund Types and Major Funds

Governmental Funds

The City reports the following major governmental funds:

General Fund – The general fund is the primary operating fund of the city. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

CITY OF PICAYUNE, MISSISSIPPI
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Airport Fund – This special revenue fund accounts for the financial resources used for the acquisition, construction, and maintenance of the City operated airport.

Economic Development Fund – This special revenue fund accounts for the proceeds from the Tourism Sales Tax, and the sales of land in the industrial park that are used for economic development.

General Obligation Street Bond Fund – This special revenue fund accounts for the proceeds from the issuance of bonds to be used for certain capital projects and improvements.

Proprietary Funds

The City reports the following major proprietary funds:

Utility Fund – The utility fund accounts for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that costs (expenses, including depreciation) of providing water, garbage, and gas services to the general public on a continuing basis be financed or recovered primarily through user charges.

Cemetery Fund – The cemetery fund accounts for the activities and operation of the City operated cemetery.

Other Fund Types

The City reports the following fund types:

Fiduciary Fund – The tax collector fund is used to account for assets held by the City in a trustee capacity or as an agent for other governmental units.

(C) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

V. Assets, Liabilities, and Net Assets or Equity

(A) Cash and Investments

The City's cash and cash equivalents are primarily considered to be cash on hand and amounts held in demand deposits. For purposes of the statement of cash flows, short-term investments held in proprietary funds with a maturity date within three months of the date acquired by the City, if any, are considered to be cash equivalents.

State statutes authorize the City to invest in (1) direct obligations of the United States government, the payment of which the full faith and credit of the United States government is pledged, (2) certificates of deposit when insured or secured by acceptable collateral and (3) obligations of the State of Mississippi, or any county, municipality or school district of the State of Mississippi which have been approved by a reputable bond attorney or have been validated by the decree of the chancery court. Investments are recorded at costs, which approximated fair value.

CITY OF PICAYUNE, MISSISSIPPI
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(B) Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" or "advances to/from other funds."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade, property tax, and fine receivables are shown net of an allowance for uncollectibles. An allowance has been provided in the general fund and the utility fund for estimated uncollectible ad valorem taxes receivable and utility charges. In the general fund, the allowance amount is estimated based on collections history. The allowance in the utility fund is estimated using accounts receivable past due 90 days or more. As of September 30, 2010, the allowance for uncollectible utility and general fund receivables is \$3,952,685.

(C) Prepaid Items

Payments made to vendors for services that will benefit periods beyond September 30, 2010, are recorded as prepaid items.

(D) Inventories

Inventories consist of natural gas stored with the City's supplier, cemetery plots, aviation fuel at the Picayune Municipal Airport, and parcels of land at the City's industrial park. Inventories are stated at cost utilizing the average cost valuation method for natural gas and aviation fuel and at historical cost for cemetery plots and land.

(E) Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws. Restricted assets in the debt service fund are restricted for the payment of debt service. Restricted assets in the special revenue funds are restricted for economic development, recreation and for certain purposes as stated in the grant agreements. Restricted assets in the enterprise funds represent utility customer deposits subject to refund and amounts restricted for improvements. When both restricted and non-restricted assets are available for use, the policy is to use restricted assets first.

(F) Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), net of depreciation are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City generally capitalizes assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest cost was capitalized during the current fiscal year.

CITY OF PICAYUNE, MISSISSIPPI
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant, and equipment of the City are depreciated using the straight-line method over the following estimated useful lives:

Buildings	50 years
Building improvements	20 years
Public domain infrastructure	50 years
Utility system infrastructure	10 – 50 years
Machinery and equipment	3 – 15 years

(G) Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statements of net assets. Bond issuance costs and bond premiums and discounts are capitalized and amortized over the terms of the respective bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs are reported as expenditures.

(H) Compensated Absences

The City's policy allows employees to accumulate unused vacation and sick leave. Full-time employees are granted vacation from 12 to 24 days per year depending on the employee's length of service. Retiring and terminating employees are paid for unused vacation up to a maximum of 240 hours. There is no liability for unpaid accumulated sick leave since sick pay is not paid upon termination of employment. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. In the fund financial statements, a liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

The compensated absences liability was computed using the specific identification method whereby the actual number of vacation hours multiplied by the employee's hourly rate at September 30, 2010. The resulting liability is then increased to include social security and retirement contributions that the City is required to pay up on liquidation of the liability.

(I) Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. The economic development fund reports reservations of fund balance for amounts resulting from tourism taxes exclusively restricted for economic development activities. Designations of fund balance represent tentative management plans that are subject to change.

(J) Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, not of related debt, consists of capital assets, net of accumulated depreciation, reduced by outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments.

**CITY OF PICAYUNE, MISSISSIPPI
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2010**

NOTE 2 - CASH AND OTHER DEPOSITS

(A) Cash

The carrying value of the City's deposits with financial institutions was \$17,694,085 and the bank balance was \$17,902,703 at September 30, 2010.

Custodial Credit Risk: State laws allows the City to invest in interest bearing time certificates of deposits for periods of fourteen days to one year with depositories and in obligations of the U.S. Treasury, State of Mississippi, or of any county, municipality or school district of the state. Further, the City may invest in certain purchase agreements.

The collateral for public entities deposits' in financial institutions is held in the name of the State Treasurer of Mississippi under a program established by Section 27-105-5 Miss. Code Ann. (1972)., Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, security pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the FDIC.

Interest Rate Risk: The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Credit Risk: The City places no limit on the amount the City may invest in any one issuer.

The carrying amount of certificates of deposits is a reasonable estimate of their fair value.

(B) Investments

Mississippi municipalities may invest surplus funds in certificates of deposit with qualified depositories and in bonds and direct obligations of the United States of America; or the State of Mississippi; or any count, municipality or school district of the State of Mississippi which have been approved by a reputable bond attorney or have been validated by the decree of the chancery clerk.

At September 30, 2010, the City did not hold any certificates of deposit with maturity dates longer than one year.

NOTE 3 - RECEIVABLES

Receivables at September 30, 2010 consist of the following:

	Governmental Activities	Business-type Activities	Total Government-wide
Property and Ad Valorem tax	\$ 1,928,770	-	1,928,770
Sales tax	678,654	-	678,654
Franchise tax	166,594	-	166,594

Total receivables, net	<u>\$ 3,180,533</u>	<u>\$ 602,791</u>	<u>\$ 3,783,324</u>

CITY OF PICAYUNE, MISSISSIPPI
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2010

NOTE 3 – RECEIVABLES (Continued)

(A) Property Taxes

The City levies a tax on real and personal property based on the assessed value of property as compiled by the Pearl River County and Hancock County tax assessors from the information extracted from the County assessment tax rolls. The taxes on real property attach as an enforceable lien on the property as of January 1. Taxes on real and personal property are levied by the City Council at the first regular meeting in September. The City's tax assessment roll is then approved by the City Council after a series of public hearings to receive the citizens' objections. Such taxes are billed and collected by the City.

In accordance with Mississippi Code of 1972, as amended for code section 27-39-321, the Board may levy taxes in any amount for general revenue purposes and general improvements. However, taxes collected for the current year are limited to an increase of not more than 10% over receipts for any one of the preceding three years. For purposes of the computation, taxes collected in the current year resulting from the property added to the tax assessment roll are excluded from the computation.

(B) Notes Receivable

Brockway Building

On May 3, 2005, the City entered into an agreement with Farmer Fresh Produce International, LLC for the sale of the City's Brockway Building. The sales price of the building was \$1,100,000 at 2% interest per annum for a period of thirty years. Monthly payments of \$4,066 are due on the first day of each month.

The sale is financed by the City. The agreement includes a special provision that the City incur \$35,000 to repair and modernize the Brockway Building's administrative offices. The City and the buyer agree that the special provision will be met by the buyer not paying the first eight payments and reducing the ninth payment. The net note receivable of \$949,355 is included in "Notes Receivable" in the Statement of Net Assets.

Legal Debt Margin – The amount of debt, excluding specific exempted debt that can be incurred by the City is limited by state statute. Total outstanding debt during a year can be no greater than 15% of assessed value of the taxable property within the City, according to the then last completed assessment for taxation. However, the limitation is increased to 20% whenever a City issues bonds to repair or replace washed out or collapsed bridges on the public roads of the City. As of September 30, 2010, the amount of outstanding debt was equal to 20.83% of the latest property assessments.

NOTE 6 – INTERFUND TRANSACTIONS

(A) Interfund Receivables and Payables

Generally, outstanding balances between funds reported as “due to/from other funds” include outstanding charges by one fund to another for services or goods, subsidy commitments outstanding at year-end, and other miscellaneous receivables/payables between funds. Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are described as “due to/from other funds” (i.e., the non-current portion of interfund loans).

Fund	Governmental Type		Business Type	
	Due From Other Funds	Due To Other Funds	Due From Other Funds	Due To Other Funds

NOTE 7 – DEFICIT FUND NET ASSETS

At September 30, 2010, there is a deficit fund balance in the Airport Fund of \$906,235

NOTE 8 – JOINT VENTURE AND JOINTLY GOVERNED ORGANIZATION

Joint Venture

Partners for Pearl River County (PFPRC) is a joint venture between the City, the City of Poplarville, and Pearl River County. PFPRC was organized to promote and develop the industrial, commercial, and economic welfare of Pearl River County. PFPRC is funded primarily by contributions received from its members. Each year the City determines the amount of support to be provided to PFPRC based on availability of City resources. Consequently, any potential future financial benefit or burden to the City resulting from activities performed by PRPRC is not determinable at this time.

**CITY OF PICAYUNE, MISSISSIPPI
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2010**

NOTE 8 – JOINT VENTURE AND JOINTLY GOVERNED ORGANIZATION (Continued)

Jointly Governed Organization

The City is a member of the Municipal Gas Authority of Mississippi (MGAM), created as a local distribution company by Mississippi State Code Section 77-6-1 for the purpose of assisting municipal gas systems in the acquisition, transportation and management of adequate, dependable and economic natural gas supplies. Membership of MGAM at September 30, 2010, consisted of 17 municipalities or natural gas districts, all located in the State of Mississippi. Each voting member appoints one commissioner to MGAM's Board of Commissioners who has oversight responsibility of the operation of MGAM. The primary source of revenue for MGAM is from gas supply contracts with each of its members which require the members to take their entire gas supply or a fixed

portion from MGAM and require MGAM to provide that supply. MGAM is considered to be a jointly governed organization since no member can unilaterally control the financial or operating policies of MGAM and its members do not have an ongoing financial responsibility. The City entered into a gas supply contract for purchases of gas effective April 1, 2001, for a term of ten years at a price based on a spot price index minus a \$.05 discount. For the fiscal year ended September 30, 2010, payments to MGAM for gas purchases amount to \$1,002,503. The payments are included in utility "expenses" on the Statement of Activities and are included in "gas purchased" on the Statement of Revenues, Expenses, and Changes in Fund Net Assets – Proprietary Funds.

NOTE 9 – RETIREMENT PLANS

The City of Picayune, Mississippi contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employee Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling (601) 359-3589 or 1-800-444-PERS.

Funding Policy

PERS members are required to contribute 9.00% (revised July 1, 2010) of their annual covered salary and the City of Ellisville, Mississippi is required to contribute at an actuarially determined rate. The current rate is 12.00% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature.

NOTE 10 – COMMITMENTS AND CONTINGENCIES

(A) Litigation

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's legal counsel the resolution of these matters will not have a material effect on the financial condition of the City.

(B) Grants and Awards

Amounts received or receivable from grantor agencies are subject to audit and adjustment by the grantor agencies, principally federal and state governments. Any disallowed expenses, including amounts already collected, might constitute a liability of the applicable funds. The City does not believe any contingent liabilities are material.

(C) Operating Lease

In February 2003, the City entered into a twenty year lease agreement with the Picayune City School District for exclusive rights to operate and maintain Snyder Park. The lease agreement requires the City to pay the School District \$5,425 annually on March 3rd for ten years. In 2013, the School District will have the property reappraised

CITY OF PICAYUNE, MISSISSIPPI
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2010

NOTE 10 – COMMITMENTS AND CONTINGENCIES (Continued)

and will adjust the annual rent accordingly. The City may cancel the lease at any time provided that they give the School District sixty days notice prior to the lease anniversary date.

(D) State Auditor’s Investigation

In June 2005, the City requested that the State Auditor’s Office investigate certain allegations of wrong doing in the Court Department. On August 1, 2009, Debi W. Cox, Special Agent for the Mississippi Office of the State Auditor, took possession of Picayune General Fund Receipt Warrant Books covering the time period of 10/25/2002 through 5/31/2005. No preliminary report on the findings has been made to date and, therefore, the potential affect of the investigation on financial statements is unknown.

NOTE 11 – RISK MANAGEMENT

(A) Self-Insurance – Workers Compensation Fund

The City is one of approximately 255 members in the Mississippi Municipal Workers’ Compensation Group, Inc. This non-profit corporation is a self-insurance worker’s compensation fund organized under the non-profit laws of the State of Mississippi. The group is self-insured under statutory workers compensation protection. Members are jointly and severally liable for the obligations of the group. The possibility of additional liability exists, but that amount, if any, cannot be determined.

(B) Self-Insurance – Liability Fund

The City is one of approximately 245 members in the Mississippi Municipal Liability Plan. The Plan is a private non-profit corporation organized under the laws of the State of Mississippi. The Plan provides liability and tort claims insurance for its members according to limits established by the Mississippi Tort Claims Act. The Plan is totally self-insured with claims and expenses paid out of the premiums and the members are jointly and severally liable for any claims and expenditures beyond the premium base. The possibility of additional liability exists, but that amount, if any, cannot be determined.

The City has purchased commercial insurance policies for various risks of loss related to torts; theft, damage or destruction of assets; errors or omissions; injuries to employees; or acts of God. Payments of premiums for these policies are recorded as expenditures/expenses. Insurance settlements have not exceeded insurance coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

NOTE 12 – PRIOR PERIOD ADJUSTMENTS

Prior period adjustments were made in the financial statements to reflect the following:

Governmental Activities:	
1) To remove police fines deferred revenue	\$ 411,169
2) To correct franchise tax receivable @ 9/30/09	174,075
3) Miscellaneous adjustments to prior period	95,891
Total	<u>\$ 681,135</u>
 Business-type Activities:

CITY OF PICAYUNE
NOTE TO BUDGETARY COMPARISON SCHEDULES (NON-GAAP BASIS)
GENERAL FUND
FOR YEAR ENDED SEPTEMBER 30, 2010

A. Budgetary Information.

The City follows these procedures in establishing the budgetary date reflected in the financial statements:

Prior to August 1, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following October. The operating budget includes proposed expenditures and the means of financing them. A public hearing is conducted at the City Hall to obtain taxpayer comments. No later than September 15, the budget is legally enacted through passage of an ordinance. Formal budgetary integration is employed as a management control device during the year for all Governmental and Proprietary Fund types. Budgets are adopted on a cash basis as required by State statute. All budgeted amounts presented in the accompanying financial statements are as originally adopted or as amended by the City Council. Accordingly, actual figures have also been presented on a cash basis.

The appropriated budget is prepared by fund, function, and department. Transfers of appropriations between departments require approval of the City Council. The legal level of budgetary controls is the department level.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mayor, Members of the City
Council, City Manager, and City Clerk.
Picayune, Mississippi

We have audited the financial statements of the City of Picayune, Mississippi, as of and for the year ended September 30, 2010, and have issued my report thereon dated April 5, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As a part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low risk that misstatements in amount that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended for the information and use of management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Mayor, Members of the City
Council, City Manager, and City Clerk.
Picayune, Mississippi

Compliance

We have audited the compliance of the City of Picayune, Mississippi, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to its major federal program for the year ended September 30, 2010. The City of Picayune, Mississippi's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the City of Picayune, Mississippi's management. Our responsibility is to express an opinion on the City of Picayune, Mississippi's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Picayune, Mississippi's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City of Picayune, Mississippi's compliance with those requirements.

In our opinion, the City of Picayune, Mississippi, complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended September 30, 2010.

Internal Control Over Compliance

The management of the City of Picayune, Mississippi, is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City of Picayune, Mississippi's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operations that we consider to be material weaknesses.

This report is intended solely for the information and use of management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

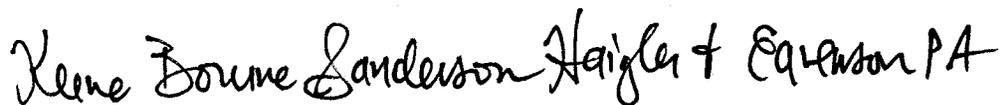

Honorable Mayor, Members of the City
Council, City Manager, and City Clerk
Picayune, Mississippi

We have audited the financial statements of the City of Picayune, Mississippi, as of and for the year ended September 30, 2010, and have issued our report thereon dated April 5, 2011. We conducted our audit in accordance with generally accepted auditing standards.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of those procedures and our audit of the general purpose financial statements disclosed no instances of noncompliance with state laws and regulations.

This report is intended for the information of the City's management. However, this report is a matter of public record and its distribution is not limited.
